

Understanding your options to continue life insurance coverage

Life Insurance Company of North America (LINA)

You know that life insurance is an important part of your overall financial planning package. Now that your group insurance benefit eligibility has changed and your life insurance coverage has ended, you have options to continue your current life insurance coverage and maintain your family’s financial health.

There are important decisions to make about continuing your life insurance benefits with New York Life Group Benefit Solutions (NYL GBS). You may be able to continue term life coverage for yourself and your family through Portability of your group coverage or by Conversion of your group coverage to an individual whole life insurance policy and paying premiums directly to NYL GBS for either option. Please refer to your Certificate of Insurance for details. Here is some information about the differences between these two options to help you make this important decision.

	Portability (Port)	Conversion (Convert)
What is the difference between ported coverage and converted coverage?	<ul style="list-style-type: none"> When you port your coverage, you can keep the group term life coverage offered through a NYL GBS group insurance contract along with some, but not all of the optional benefits that were included. Benefits not available on ported coverage include Accidental Death and Dismemberment or Waiver of Premium. Term life insurance provides coverage for a specific term (such as, up to a certain age). It pays only the death benefit in the event you die during the term of the coverage; it has no accumulated cash value or benefit should you outlive the contract term. Please read your Certificate of Insurance for more details. 	<ul style="list-style-type: none"> Conversion of coverage for you, your spouse and any children is converting to individual whole life (or permanent life) insurance policies. The converted policy only provides life insurance and does not include any optional benefits such as Waiver of Premium, or Terminal Illness. Whole life insurance builds cash value that you can borrow against or use to pay future premiums. Please read your Certificate of Insurance for more details.
Will the rates be different from the rates I paid while I was working?	<ul style="list-style-type: none"> The premium rates are typically higher than what you paid under the group contract. The premium rates increase with age and are not guaranteed. With ported coverage, you will enter a pool of other individuals who have ported their coverage. Rates are then based on the experience of this group. 	<ul style="list-style-type: none"> The rates for conversion policies are normally higher. The premium rate will not change as you age. The rate is based on your age at the time you convert. Your coverage is guaranteed for life (i.e., to age 100), as long as premiums are paid and no changes to the coverage are made.
